

KU Master of Science in School Counseling Requirements

The Department of Counselor Education offers a Master of Science degree in School Counseling designed to prepare counselors to work as Professional School Counselors in PreK-12 school settings. The CACREP accredited 60-credit School Certification and Licensure Program meets the Pennsylvania Department of Education's requirements to be a PreK-12 Pennsylvania Certified School Counselor and meets the academic requirements for the Pennsylvania state Licensed Professional Counselor (LPC) credential.

The program consists of core counseling courses, specialty area courses, and 700 hours of field experience. School counseling students are eligible to sit for the PRAXIS exam. Upon successful program completion and qualifying score on the Professional School Counselor PRAXIS examination, certification as a Professional School Counselor is granted through the Pennsylvania Department of Education. Successful completion of the program also meets the educational requirements for Pennsylvania state licensure in Professional Counseling (LPC) and are eligible to take the National Certified Counselor (NCC) examination, a state licensure prerequisite.

Student Learning Outcomes

1. Students will demonstrate knowledge of the ethical standards in counseling and the advocacy role of counselors in addressing institutional and social barriers which impede access, equity and success for clients
2. Students will demonstrate knowledge of the multicultural competencies and the effects of power and privilege for counselors and clients.
