*Environmental Geography Minor:

Why choose the Environmental Geography Minor?

1. Environmental geography gives you a spatial perspective, so that not only can you answer the question of where are things located, but why are these phenomena located where they are and what is their significance.
2. Environmental geography provides a global perspective of environmental processes and problems that condition and influence international relations.
3. Environmental geography expands employment opportunities; its perspectives are used by planners in government, teachers, environmental analysts, and non-governmental organizations.
